Ongoing research projects

1. Investigating the relationship between dietary patterns and the prevalence of Metabolic syndrome among the registered population of kavar cohort study aged 35-70 years

2. Investigating the relationship between dietary patterns and the prevalence of cardiovascular disease risk factors among the registered population of kavar cohort study aged 35-70 years
3. Liver Transplantation, IBD Clinical Course, Is There a Link? A Systematic Review and Meta-Analysis
4. Aminophylline for prevention and Treatment of Postdural Puncture Headache (PDPH): A Systematic Review and Meta-Analysis Protocol
5. Comparison of mean scores of the students studying at Shiraz University of Medical Sciences before and after online examination due to the coronavirus (Covid-19) pandemic in the academic year 2019-2020.
6. The expression of hsa-miR-4270 as a new diagnosis biomarker in gastric cancer
7. Investigating the effect of intraperitoneal and local injection of Infliximab on histopathological and stereological factors in the experimental model of esophageal stricture in adult rats
8. Investigating the relationship between media usage duration and metabolic syndrome among the study population of Kavar Cohort study
9. Association between urolithiasis and metabolic syndrome
10. Risk factors, mortality, and cardiovascular outcomes in patients with metabolic syndrome
11. Association between infertility and metabolic syndrome and cardiovascular events
12. The association of sedentary lifestyle with non-alcoholic fatty liver disease
13. Association of metabolic syndrome and its components with the risk of renal stone: a nested case control study
14. Association of non-alcoholic fatty liver disease with the risk of Renal stone disease
15. Examining risk factors, and cardiovascular outcomes in patients with type 2 diabetes
16. Drug therapy in covid-19 -a systematic review
17. Comparison of 3 methods of surgery (Puling seton, Thight seton, Endoflap) in patients with anal fistule Aretrospective study
18. Evaluation of clinical status and quality of life of ulcerative colitis patients after proctocolectomy
